Products & Technologies

- | | |
|-----------------------|---|
| Estimator VJ | The latest version of our estimating software. Run it on as many computers as you like. |
| Estimator V6 | Still Supported but due to be phased out. |
| Vetting Module | It uses the data created by Estimator to generate Vetting/Sub-Contract Comparison Sheets. |
| BQ Print II | Primarily used by Quantity Surveyors for producing Bills of Quantities. |
| JAVA | A robust programming platform. It's stability, capabilities and benefits are passed onto you in EstimatorVJ |
| Moving Forward | How can we help you? Contact us and provide us with your requirements that our software may lack. |

- If you do not have a current Contract, contact CCSi and a trial account can be set up for evaluation purposes

Full Installers

[Mac OS X](#)
[Windows](#)

Latest Updates

[Mac OS X](#)
[Windows](#)

Other Platforms

Installers are available for other Platforms. Please contact CCSi for details.

Select the appropriate Installer and download.

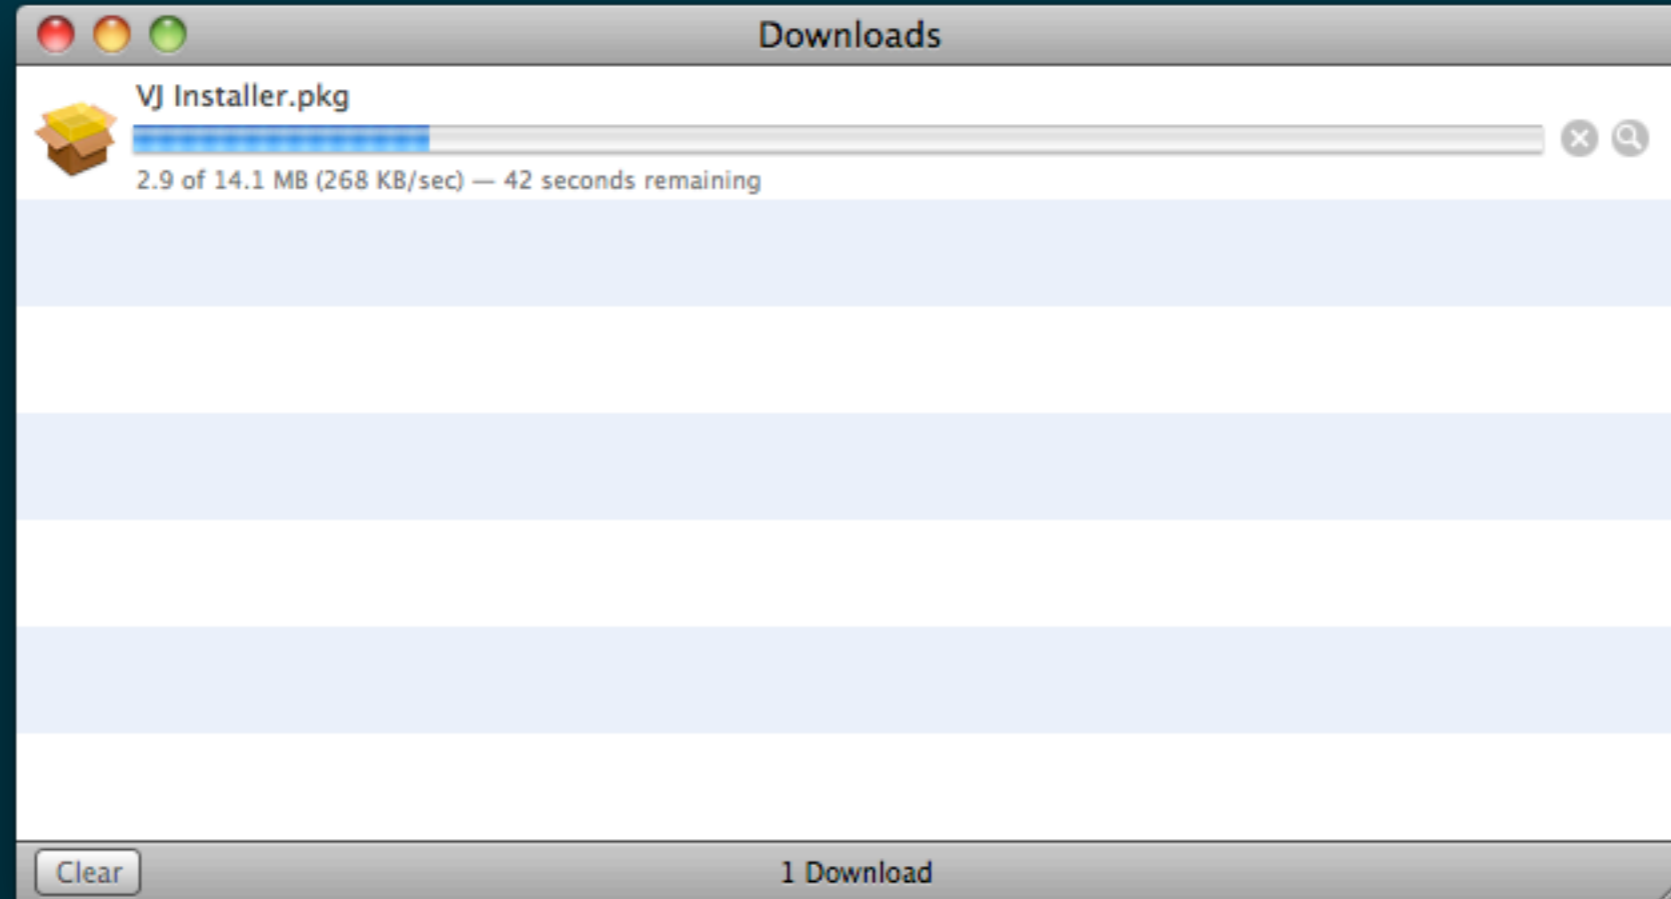

Installing EstimatorVJ

MAC Users click [here](#)

WINDOWS Users click [here](#)

Installing EstimatorVJ

“Mac”

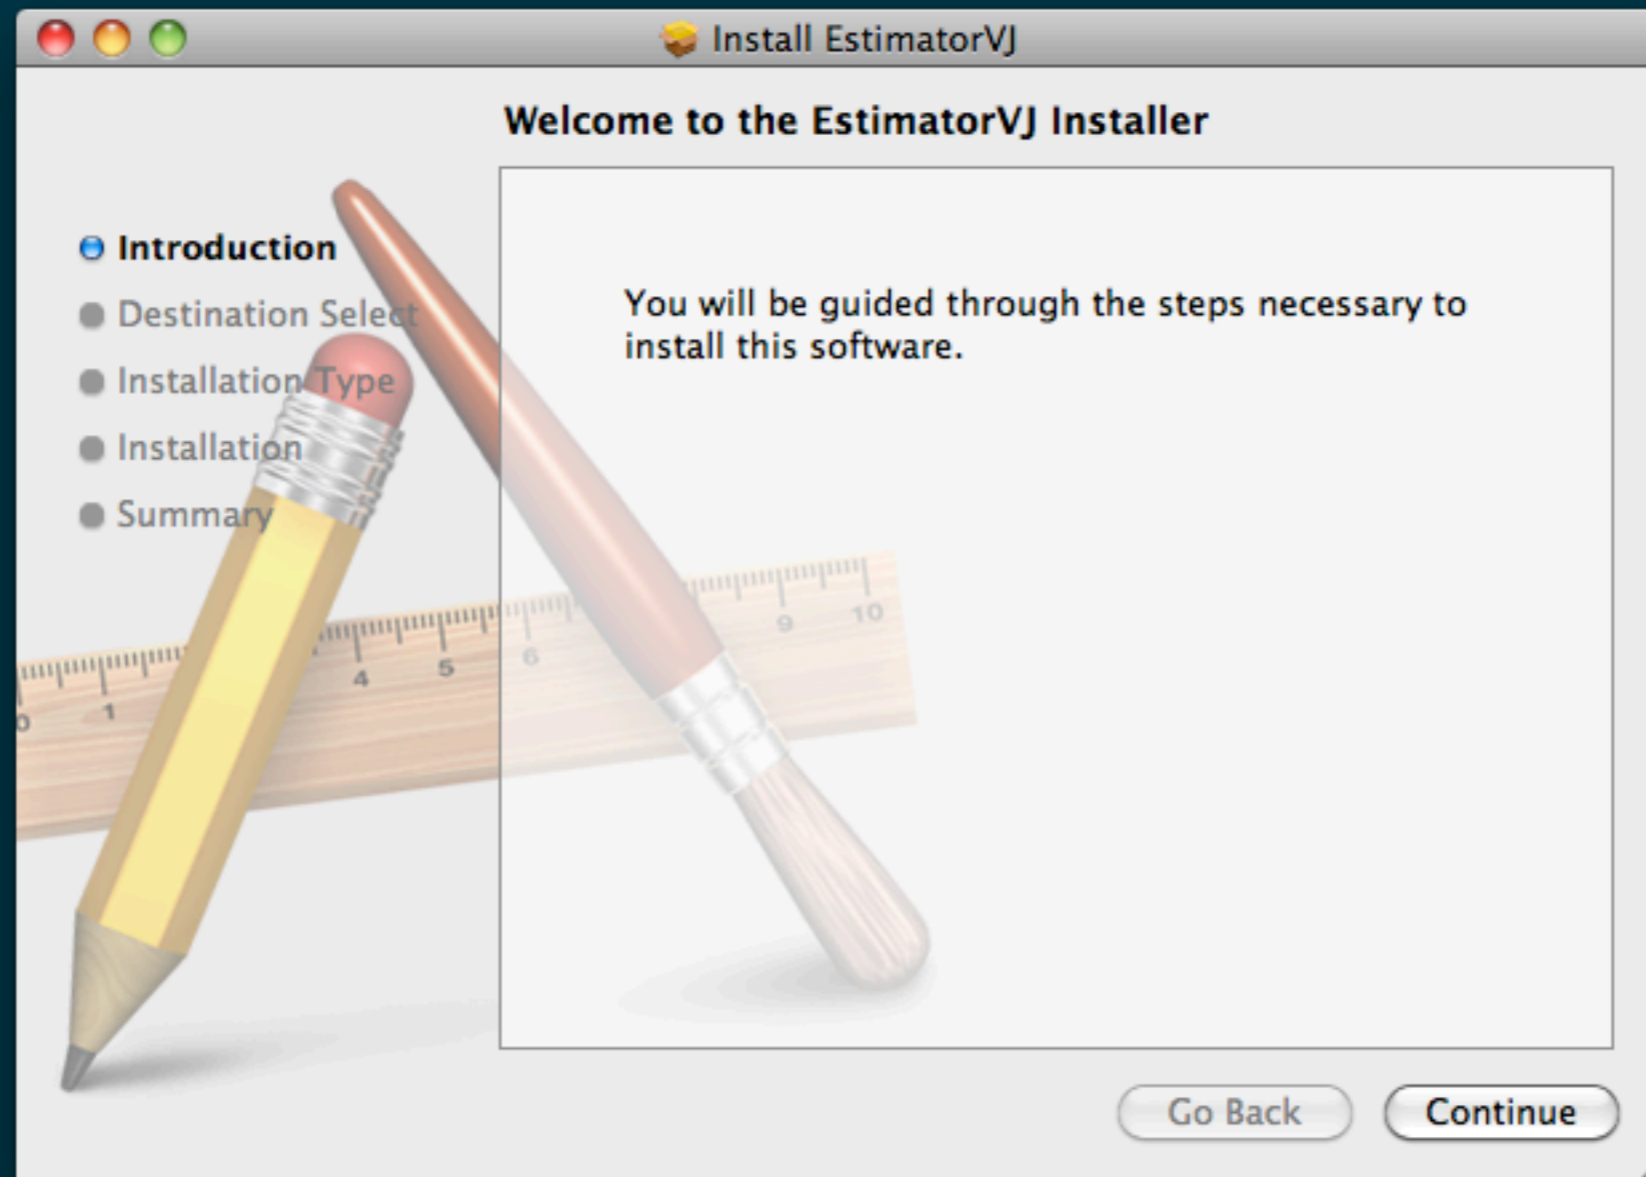

The above downloads window will appear showing the download progress,
and the file being downloaded “VJ Installer.pkg”

Installing EstimatorVJ

“Mac”

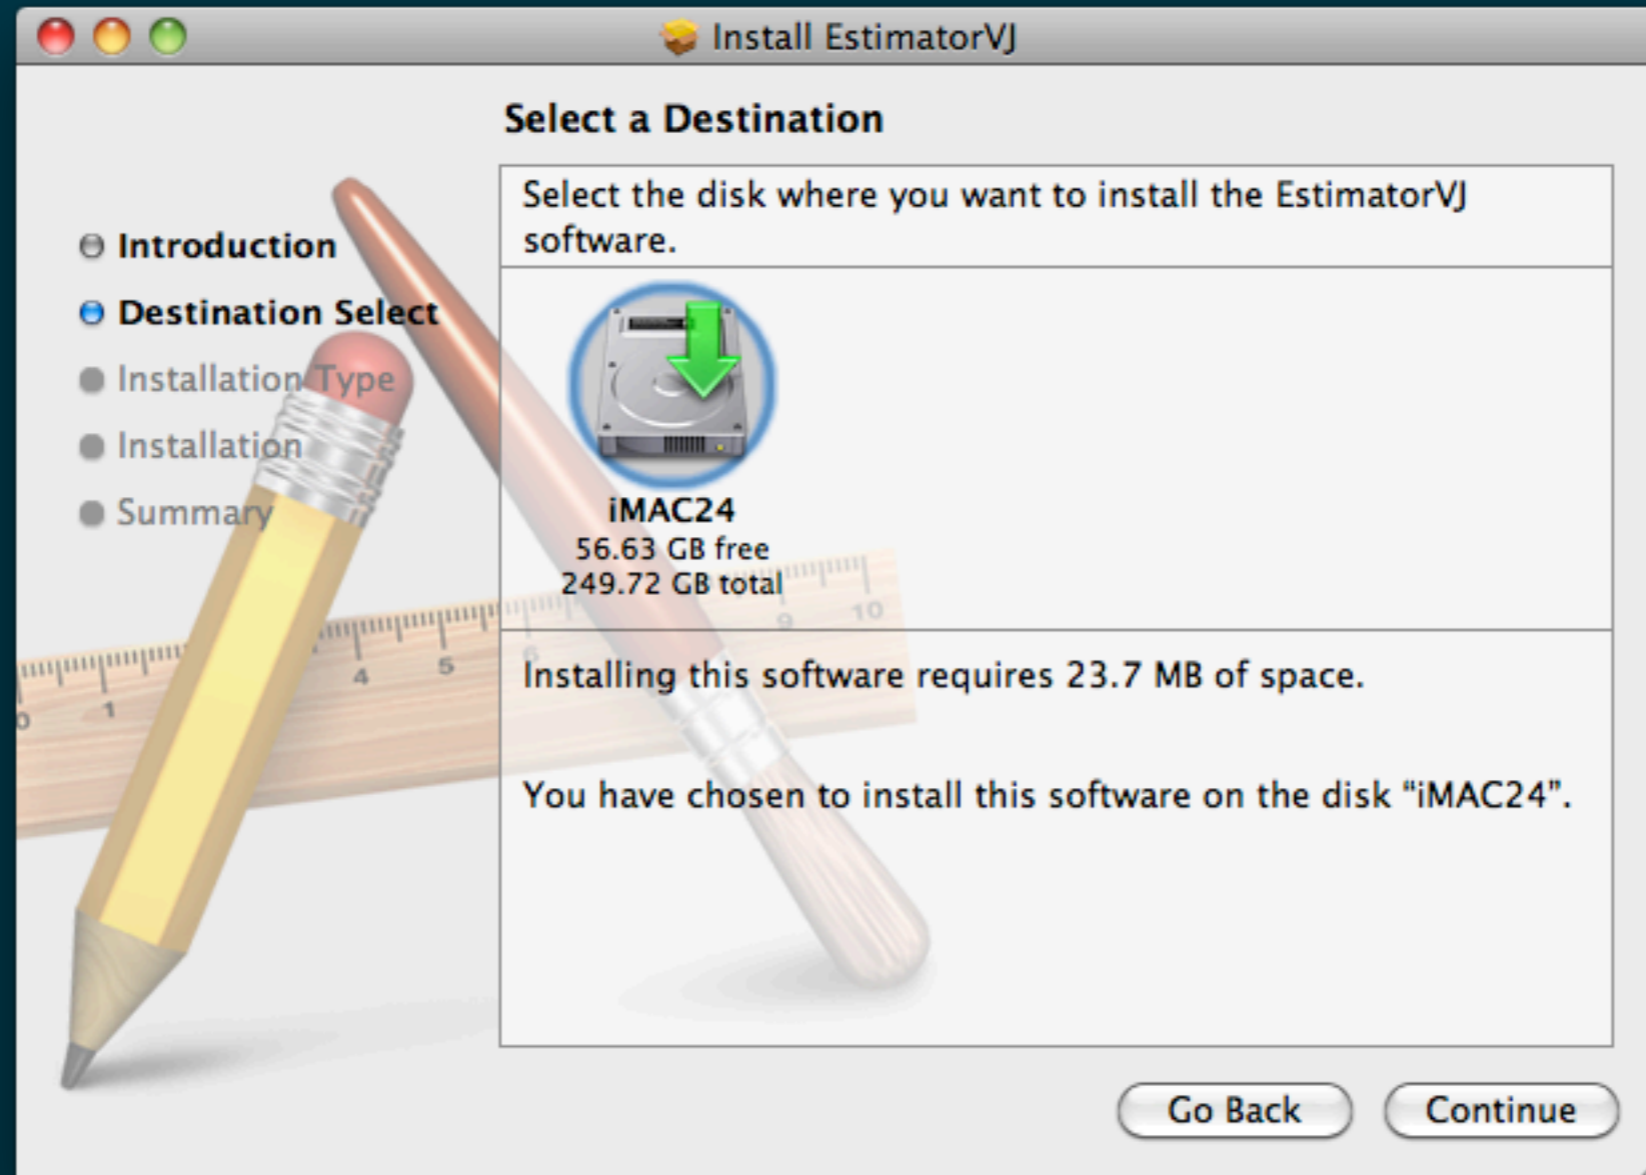

Once the installer has been downloaded, the Installer will open.
Click “Continue” to start the installation.

Installing EstimatorVJ

“Mac”

Choose where to Install EstimatorVJ.
We suggest you leave this as the default Location suggested.
The program will then be installed into the "JEstimator" folder in your "Applications" folder.
Click Continue.

Installing EstimatorVJ

“Mac”

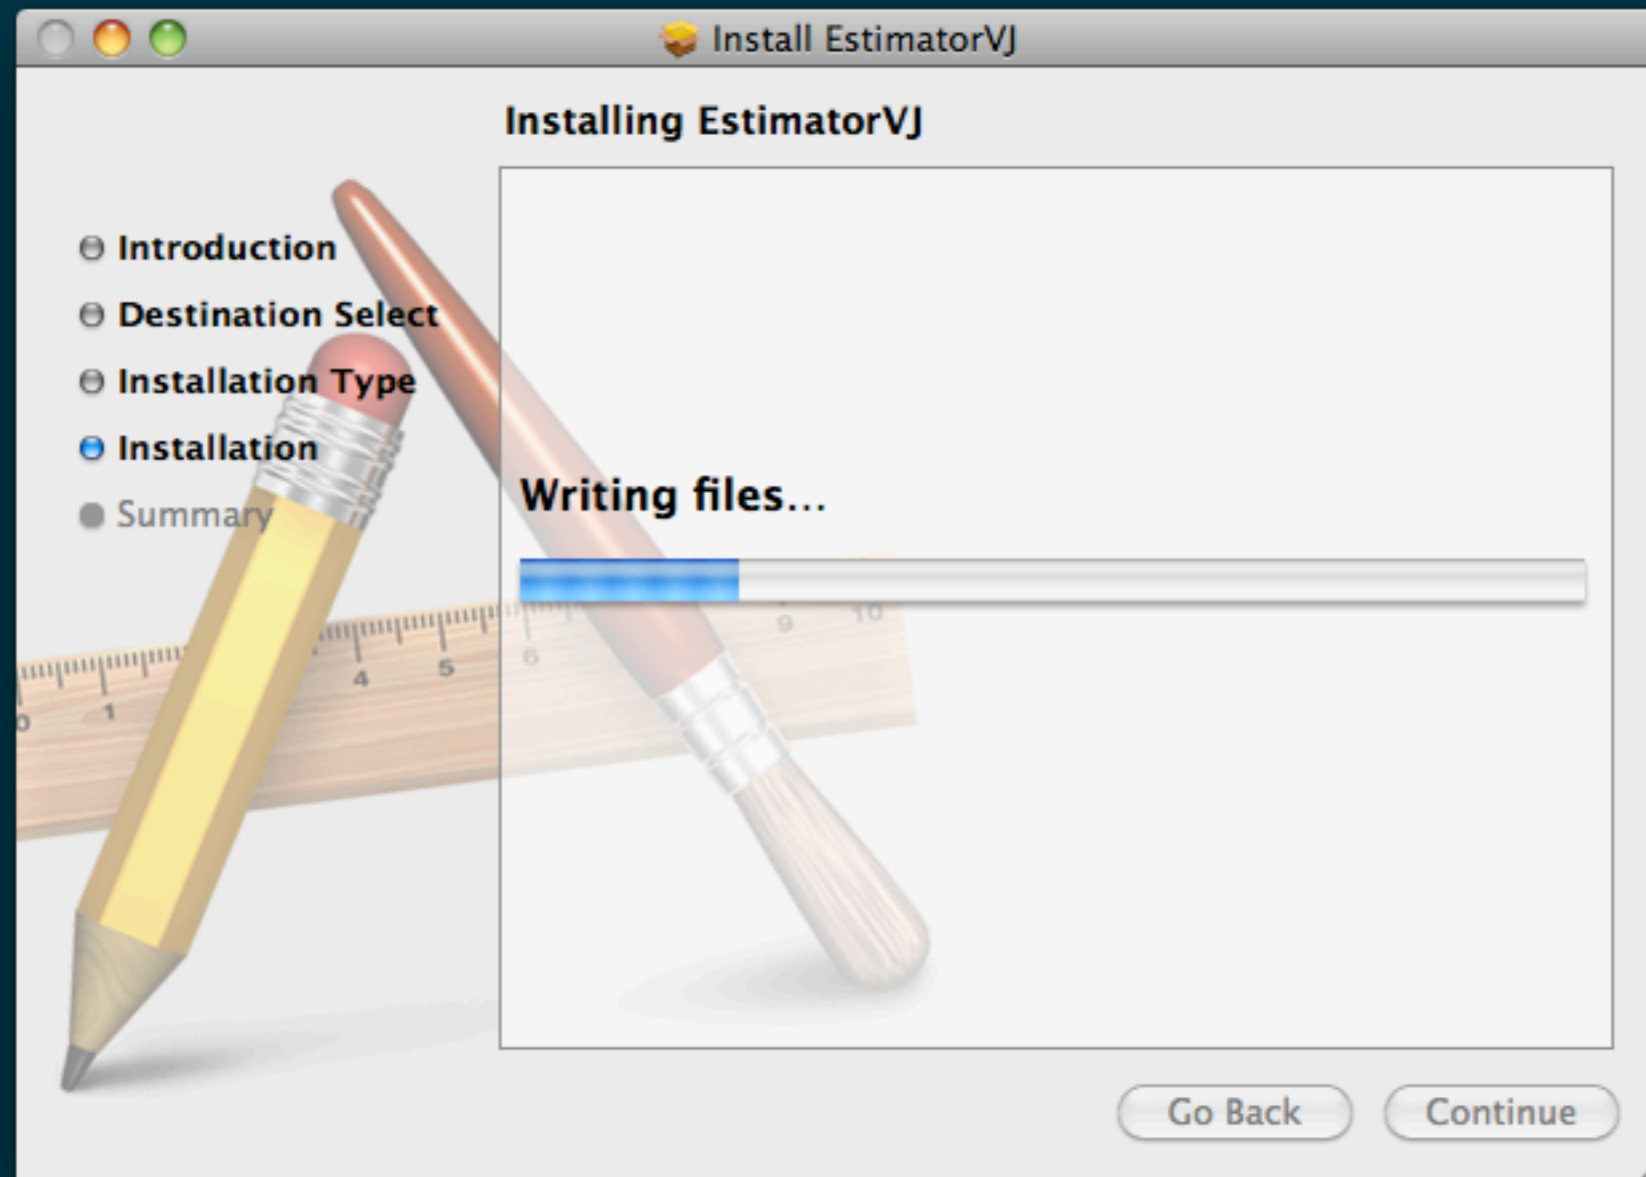

The image shows a standard Mac OS installer password prompt dialog box. It features a lock icon on the left and the text "Type your password to allow Installer to make changes." on the right. Below the text are two input fields: "Name:" with the text "Fred" and "Password:" which is currently empty. At the bottom left, there is a "Details" link with a right-pointing triangle and a help icon (a question mark in a circle). At the bottom right, there are "Cancel" and "OK" buttons.

You will be required to enter the “Password” for the Administrator of your computer before proceeding to the final stages.

Installing EstimatorVJ

“Mac”

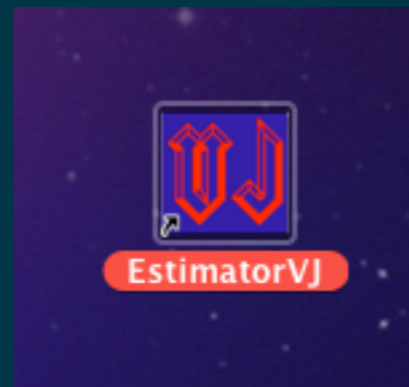

Finally, the Installer will complete the task of writing/installing the software.

Installing EstimatorVJ

“Mac”

A Desktop shortcut will be created.
Double click this to start EstimatorVJ.

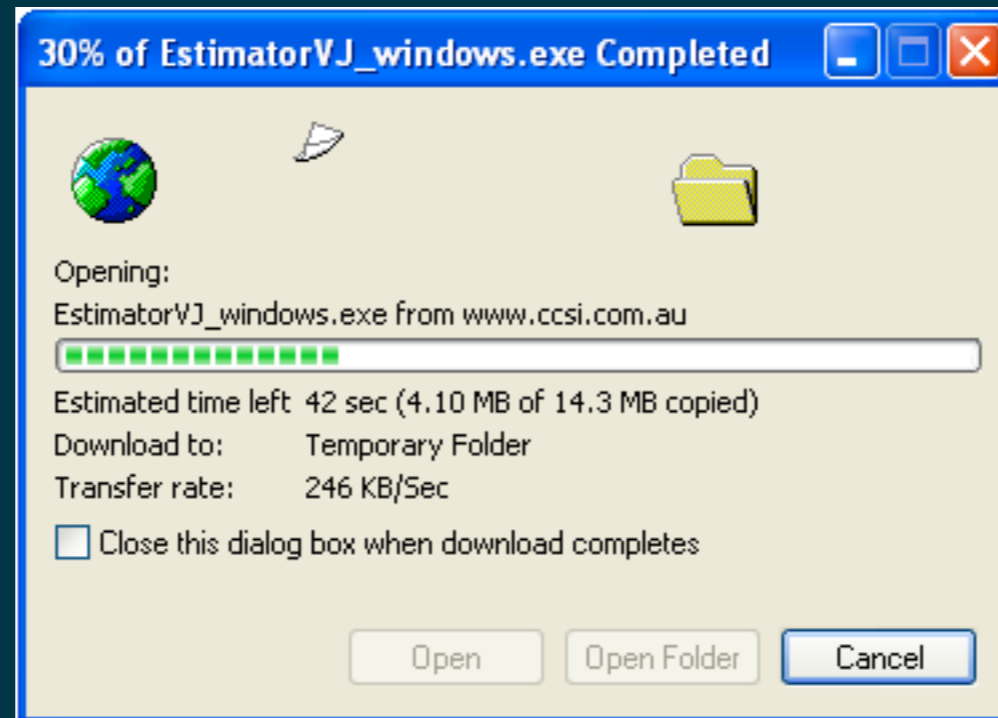

Installing EstimatorVJ

“Mac”

The installation is now complete.
You can now close this tutorial.

Installing EstimatorVJ

“Windows”

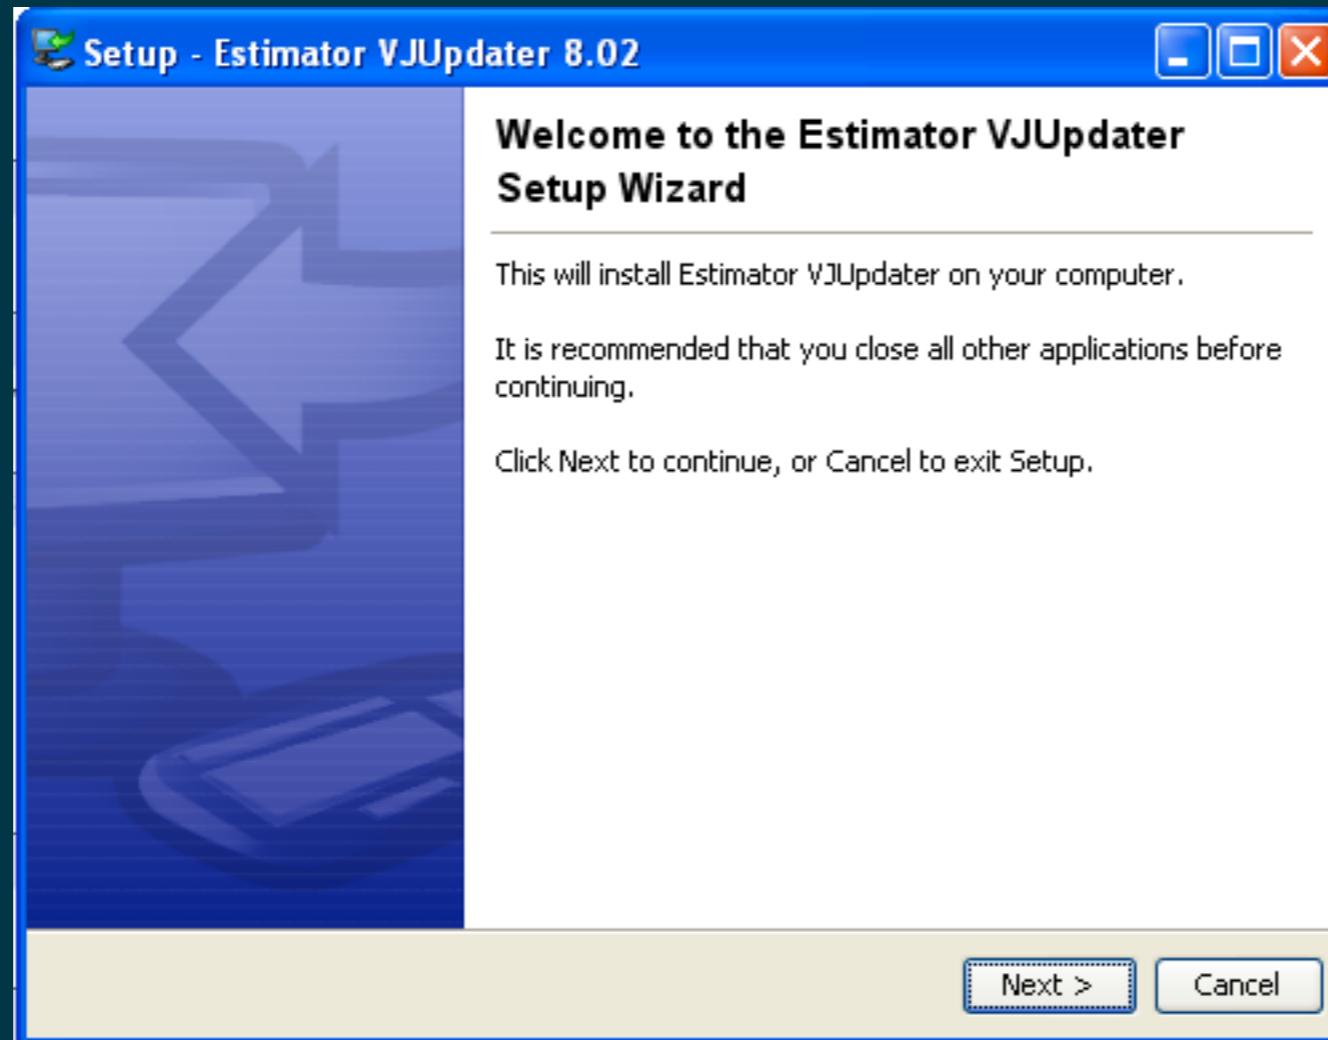

The above downloads window will appear showing the download progress, and the file being downloaded “**EstimatorVJ_windows.exe**”

Installing EstimatorVJ

“Windows”

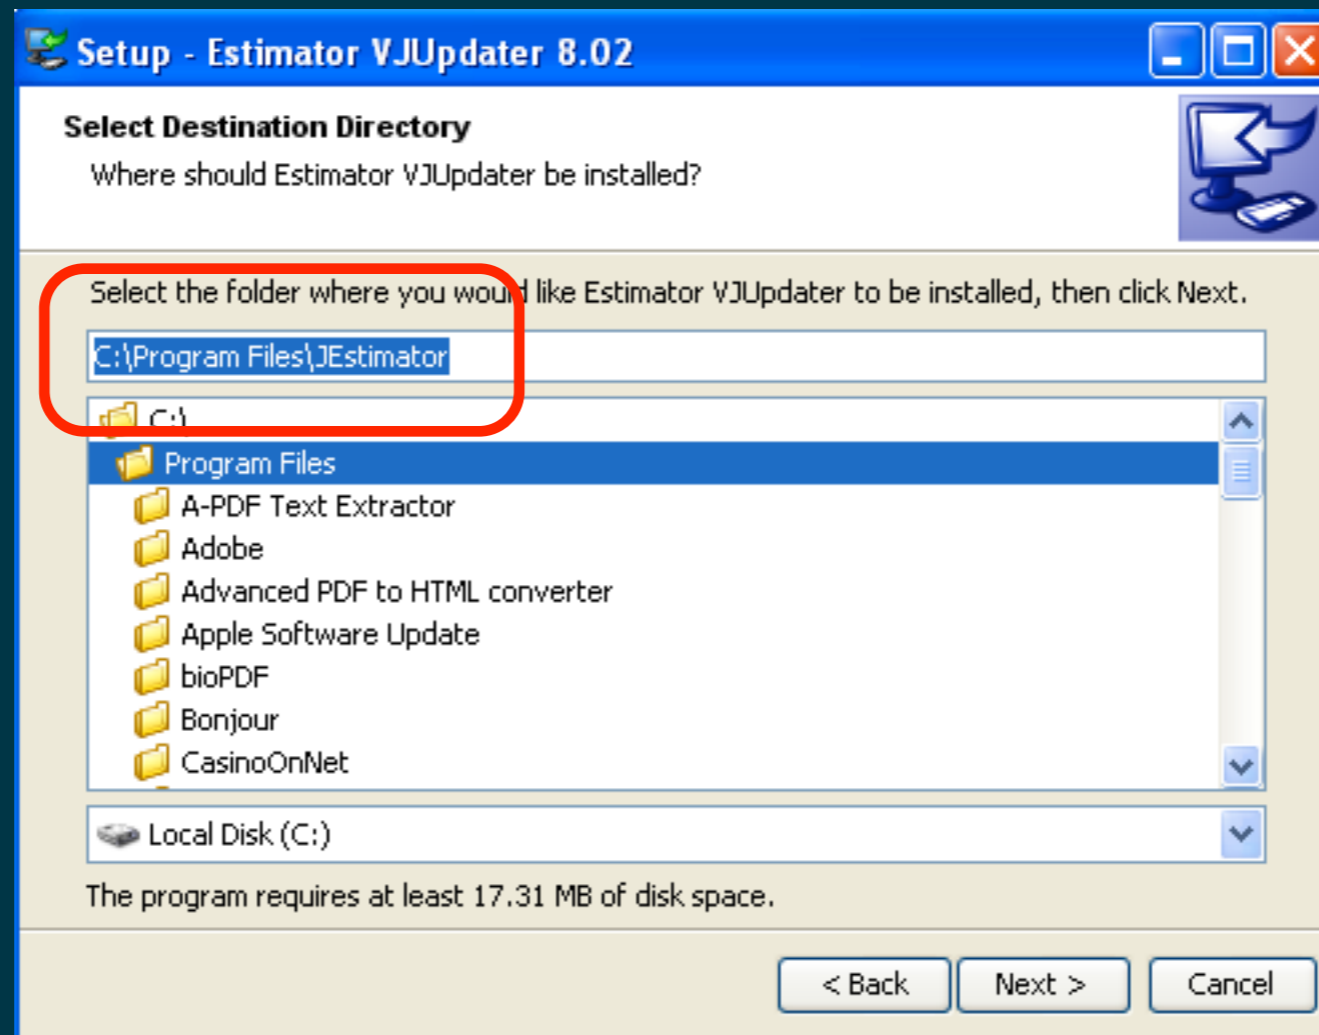

Once the installer has been downloaded, the Installer will open.
Click “Next” to start the installation.

Installing EstimatorVJ

“Windows”

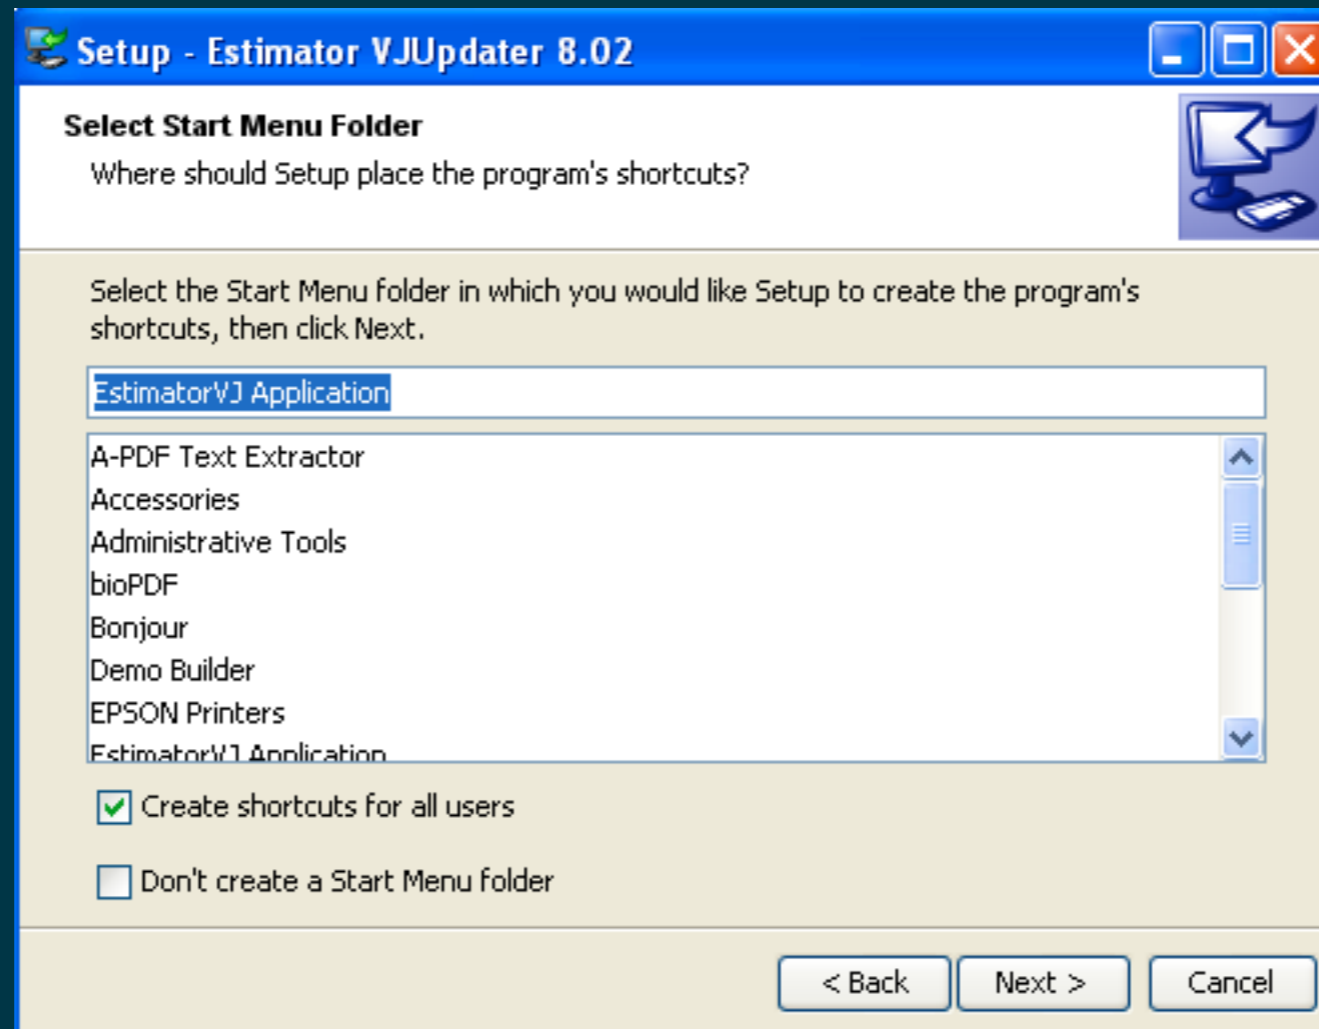

Make sure that where the program is to be installed says "C:\Program Files\JEstimator".
By placing EstimatorVJ in this location makes it easier for CCSi to provide support if required.
Click "Next" to continue.

Installing EstimatorVJ

“Windows”

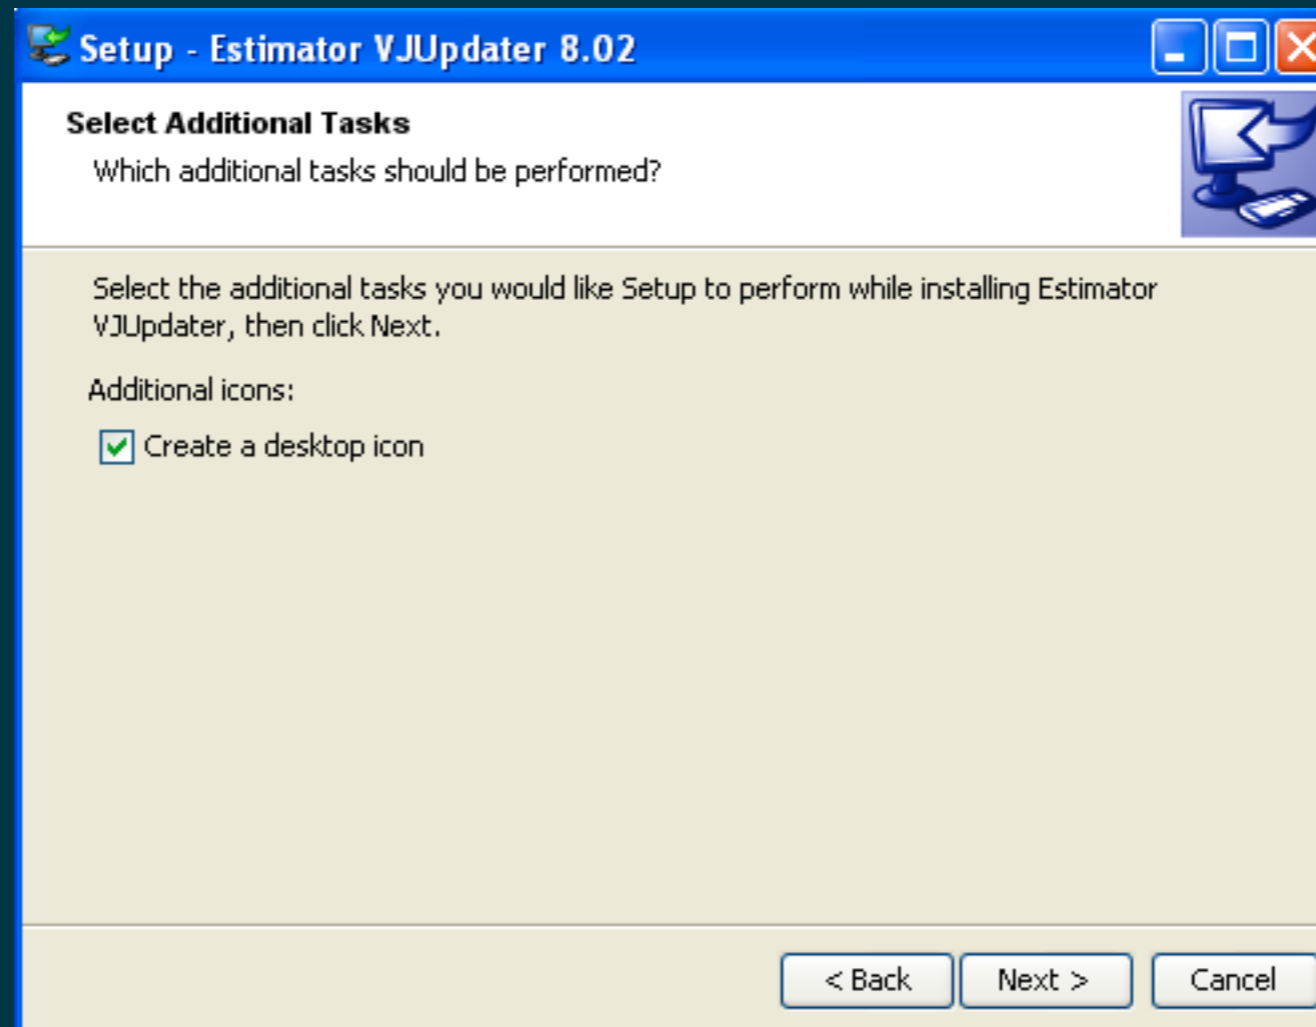

Confirm that the installer will use “EstimatorVJ Application” for the Start Menu folder.
Click “Next” to continue.

Installing EstimatorVJ

“Windows”

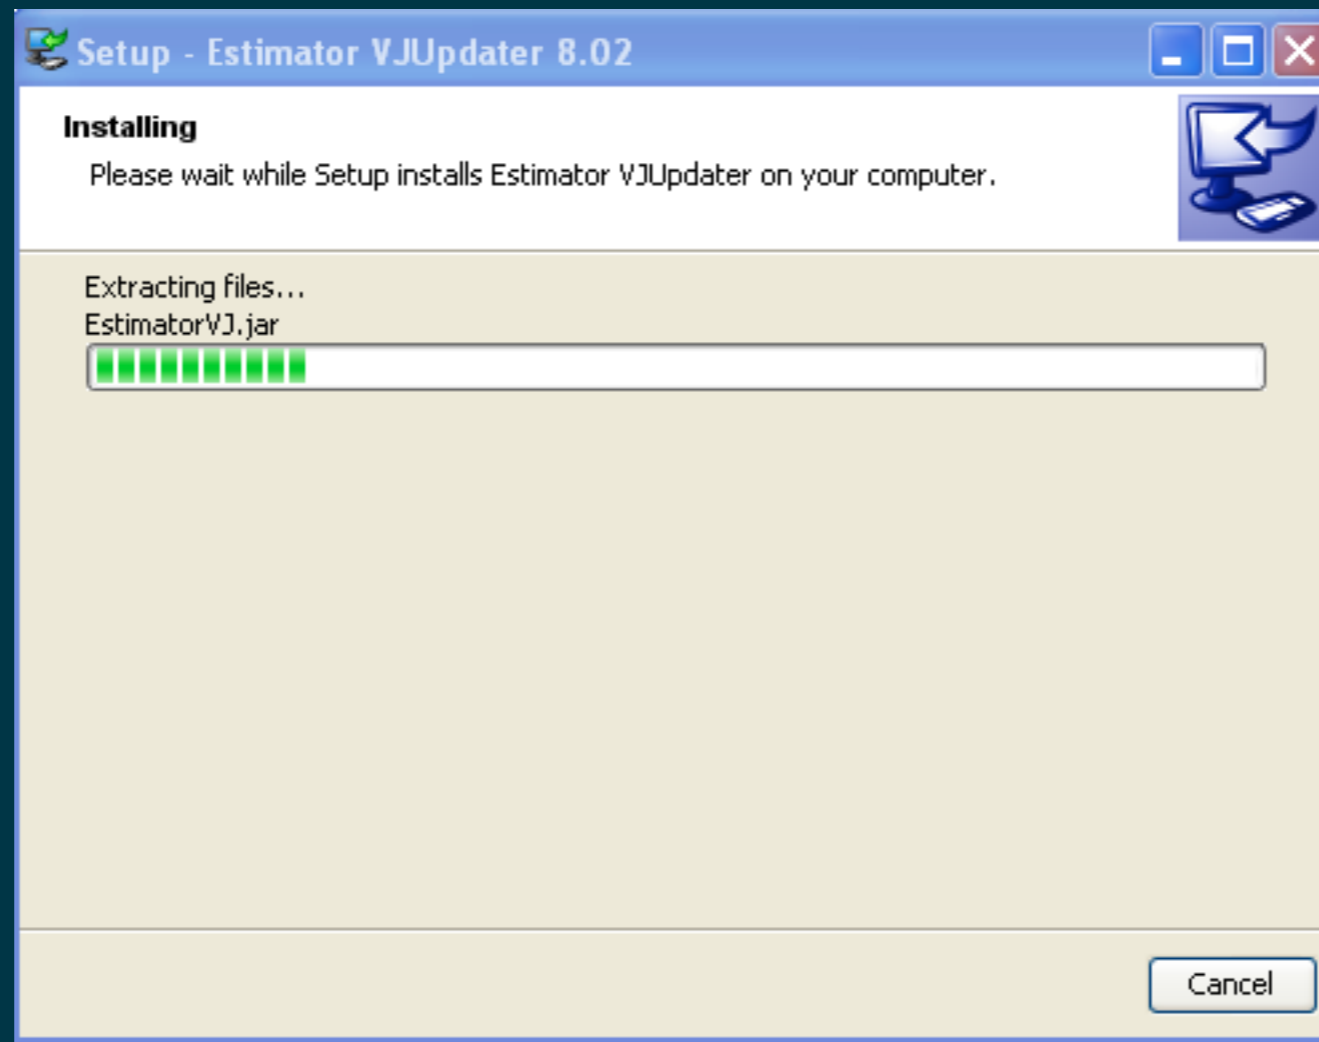

Confirm the creation of a desktop icon.
Click "Next" to continue.

Installing EstimatorVJ

“Windows”

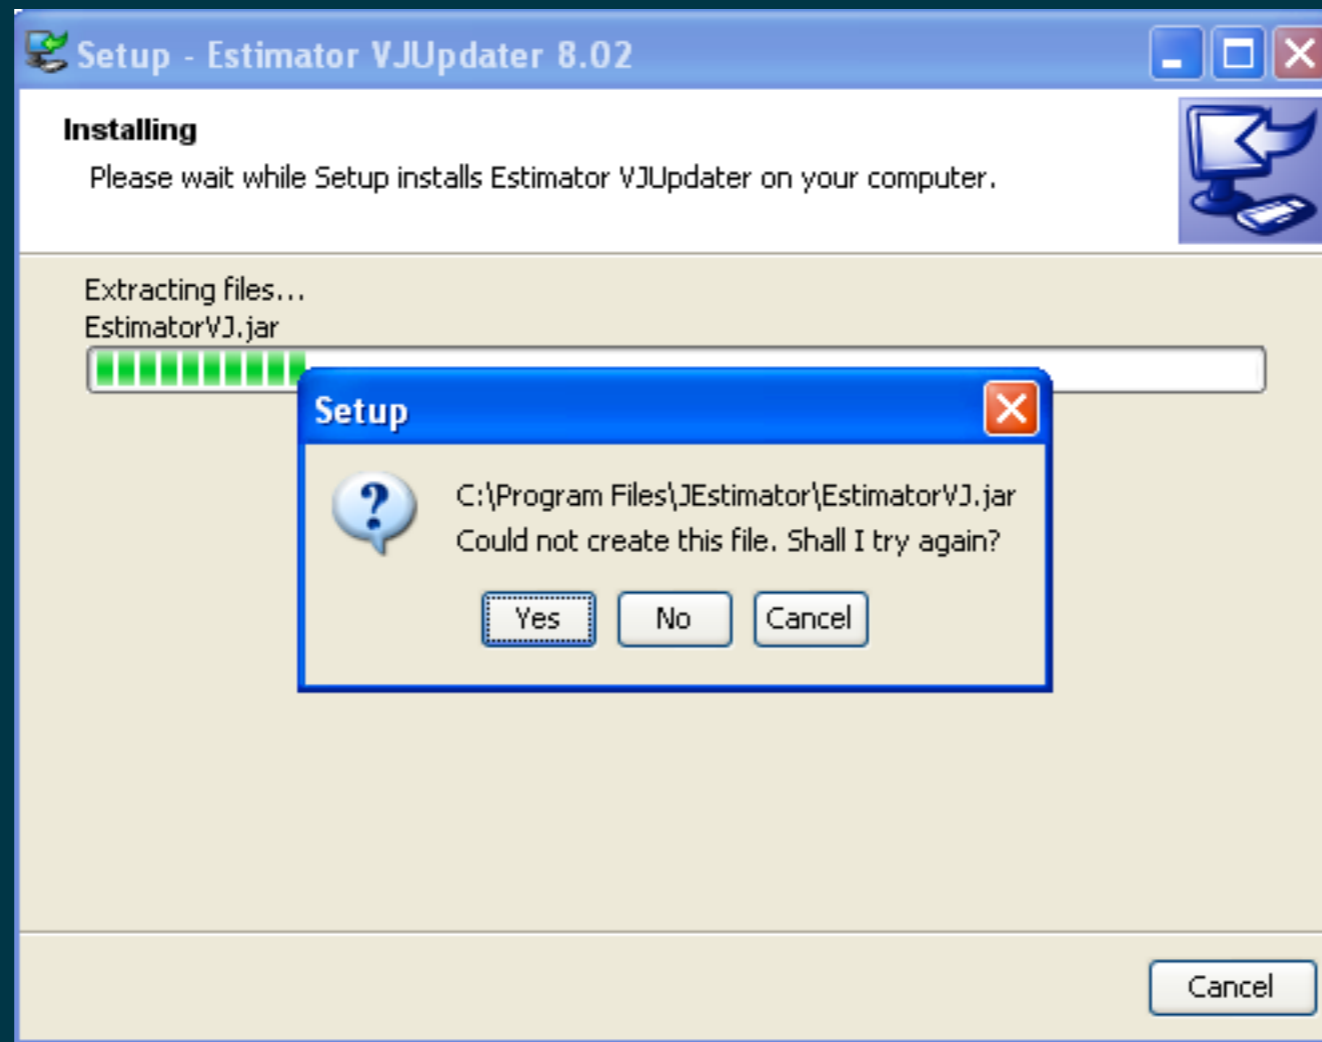

The Installer will now copy the appropriate program files into the program folder.

Installing EstimatorVJ

“Windows”

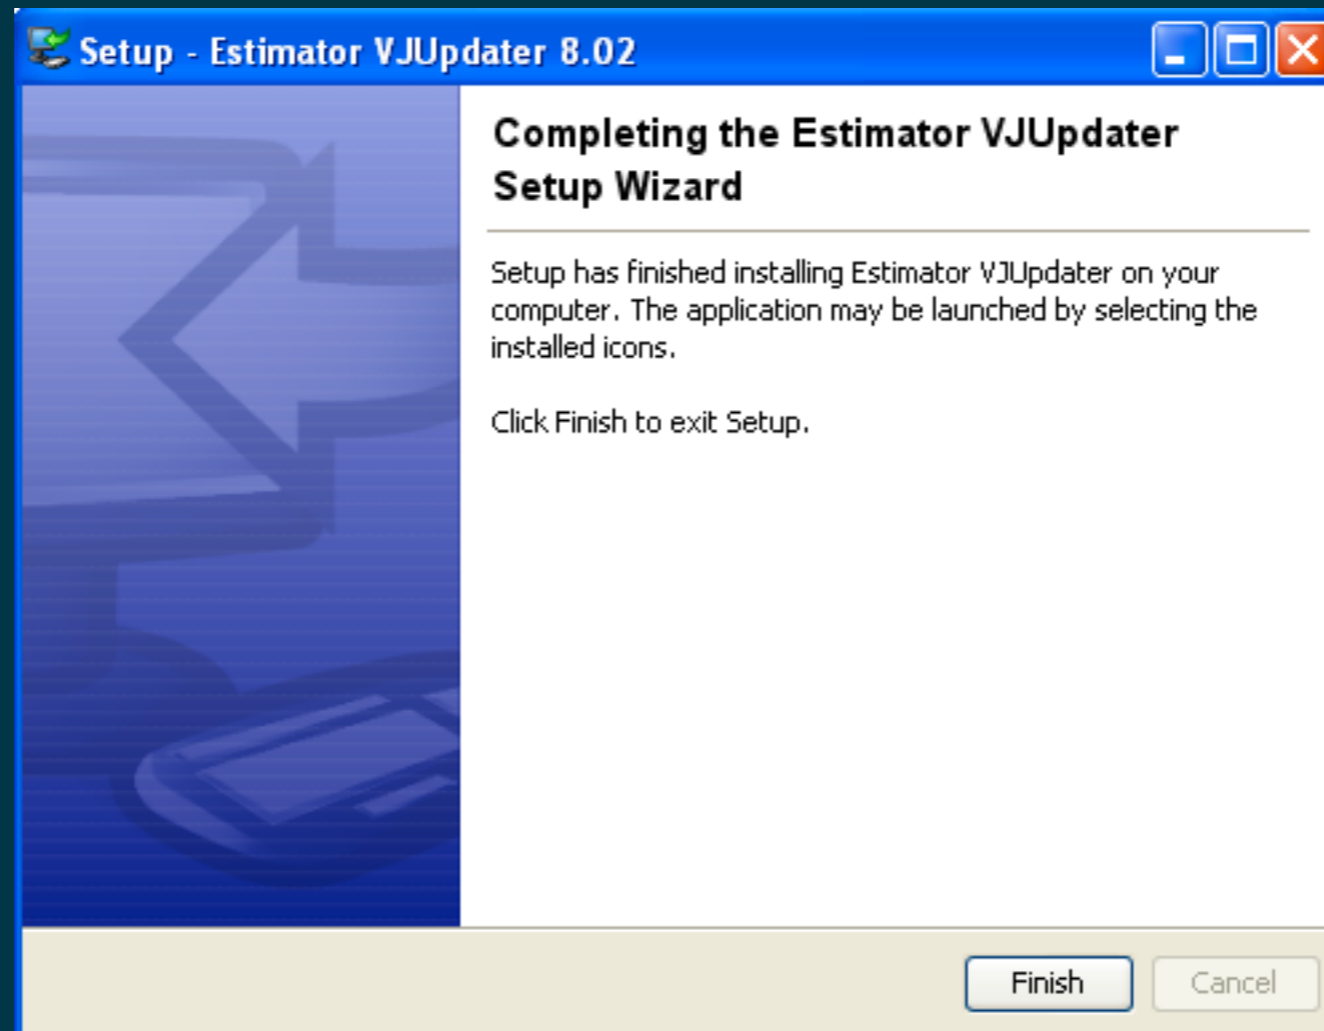

If this message appears during the installation, you must reboot your computer and try again.
If the message appears again, then you do not have permissions to write the program files onto your computer. You will need to get assistance from an administrator.

Installing EstimatorVJ

“Windows”

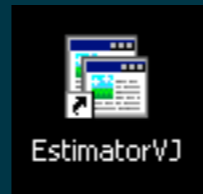

When the installation is complete click “Finish”.

Installing EstimatorVJ

“Windows”

A desktop icon will facilitate launching the program.
